

June 2016 Reno Update

Dear Praying Friends,

Thank you so much for praying for us this month. Last month we asked for prayer for struggles in the church. John had to confront Carlos over several issues. Carlos responded very well but is not preaching or teaching right now. Please pray for wisdom and strength for John as well as continued progress in Carlos' life.

For several years the library has been used less and less as research is so readily available through the internet in Salinas. This, as well as some difficulties with the two workers led to the decision to close the library in Salinas. Robynn has already begun a reading time in Jutai and the children are loving the books! The villages do not have the same access to the internet that Salinas does, so we are exploring the possibilities of using the books in São Luis and Jutai. Please pray for wisdom and direction!

Bobby pretending to play☺

Carolyn at almost six months.

Please pray for John and family as they prepare for three weeks of VBS in July. John continues to struggle physically but will see the neurologist this week Lord willing.

Robynn was asked to bring a letter stating that she was qualified to teach religious classes in the private school. Apparently someone on the state council is unhappy that Robynn rather than a Catholic is teaching. Please pray for this situation!

Dani's support is now at 77%! She is aiming to leave mid September. There will be a sendoff service for her on August 12. This date will allow Hannah to go for the service and then return to the States for the rest of her furlough. Our parents are also hoping to be there. Please pray for Dani's license. She is taking classes this week for the permit and then will have classes for the car and motorcycle. Please also pray for the rest of her support and visa too.

Thank you so much for your continued prayers on our behalf.

Love,

The Renos in Brazil
